Head Teacher's Notice Board

It has been an excellent week in school and the whole school enjoyed a beautiful mass led by Year 6. We were very pleased to see so many parents there and I was so proud of the super behaviour.

Next week is another busy week, and I am sure it will be another positive one! Great learning behaviour has been seen around school this week - keep it up!

YEAR 6 SECONDARY SCHOOL VISITS

Can you please ensure that if your child is going on any school visits to secondary schools that you inform the Office so we can mark your child out on our registers accordingly

SAFER ESSEX ROADS PARTNERSHIP ISSUES CHILD CASUALTY WARNING!

Safer Essex Roads Partnership (SERP) has issued a plea for drivers, parents and children to be especially vigilant following a recent spike in the number of children being seriously injured while crossing the road.

Provisional data from Essex Police shows that between 17 August and 15 September, nine children aged 5-16 years were seriously injured on roads across Essex, Southend-on-Sea and Thurrock.

Six of the nine injuries have taken place since 3 September, the earliest date at which schools in Essex resumed after the summer holiday period, and five happened during typical school travel times (weekdays 8am-9am and 3.20pm-4.50pm).

These nine child casualties equate to 19% of all killed and seriously injured (KSI) casualties in the SERP area, and 63% of pedestrian KSIs, during this period. Please remind children to take extra care when traveling to and from school!

Will Cubbin, SERP's data analyst, said: "In a typical September, based on average figures for the last three years, we would expect 10% of all KSI casualties, and 35% of pedestrian KSIs, to be aged 16 years and under."

Across the UK there has been an increased focus on pedestrians following a 12% year-on-year increase in pedestrian fatalities - from 398 in 2013, to 446 in 2014.

In fact, pedestrians accounted for three quarters of the overall 4% increase in fatalities between 2013 and 2014, and made up 25% of all fatalities in 2014. At 446, the 2014 figure was the highest number of pedestrian deaths since 2011.

The Institute of Advanced Motorists (IAM) recently called for more to be done to protect pedestrians, including making pedestrian safety a bigger factor in vehicle design, and a long-term engineering programme to deliver safer roads in the UK.

Sarah Sillars, IAM chief executive officer, said: "Pedestrian fatalities are rising faster than any other group right now so it is vital that drivers are more sympathetic and aware of pedestrians when they make their journeys.

"There is no need to blame any party when it comes to how to reduce the numbers of people killed and injured on our roads - all road users need to look out for each other and ensure we minimise the impact of our own and others unpredictable behaviour."

Please respect our neighbours and use the church car park to drop off and collect your child, or walk to school
